

■ ■ Spidy Task Automation Assistant

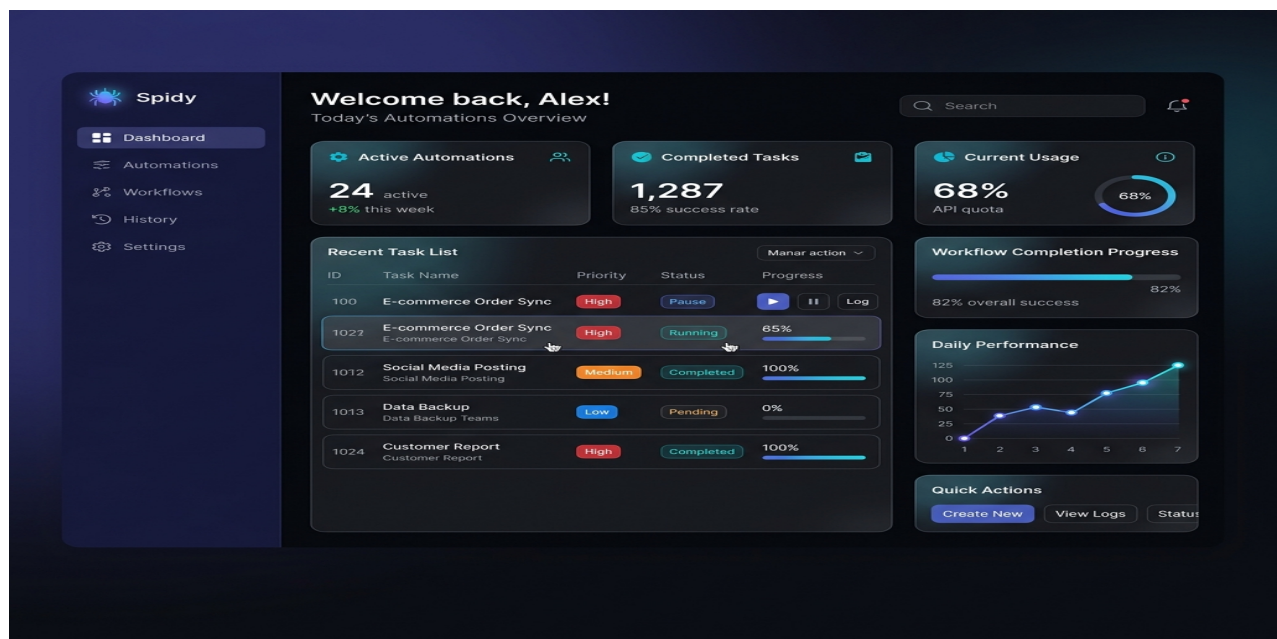

Super Easy User Manual & Pointer Guide for All Ages! ■

■ Quick Start Guide (3 Simple Steps)

1. ■ **Step 1: Create a Task** — Click '+ New Task' to add homework, projects, or chores.
2. ■ **Step 2: Talk to Spidy** — Tell the AI helper *'Remind me to finish Science assignment tomorrow at 4 PM'*.
3. ■ **Step 3: 1-Click Auto-Solve** — Type a goal like *'Build an AI Website'* and click 'Auto-Solve Goal'. Spidy solves it all!

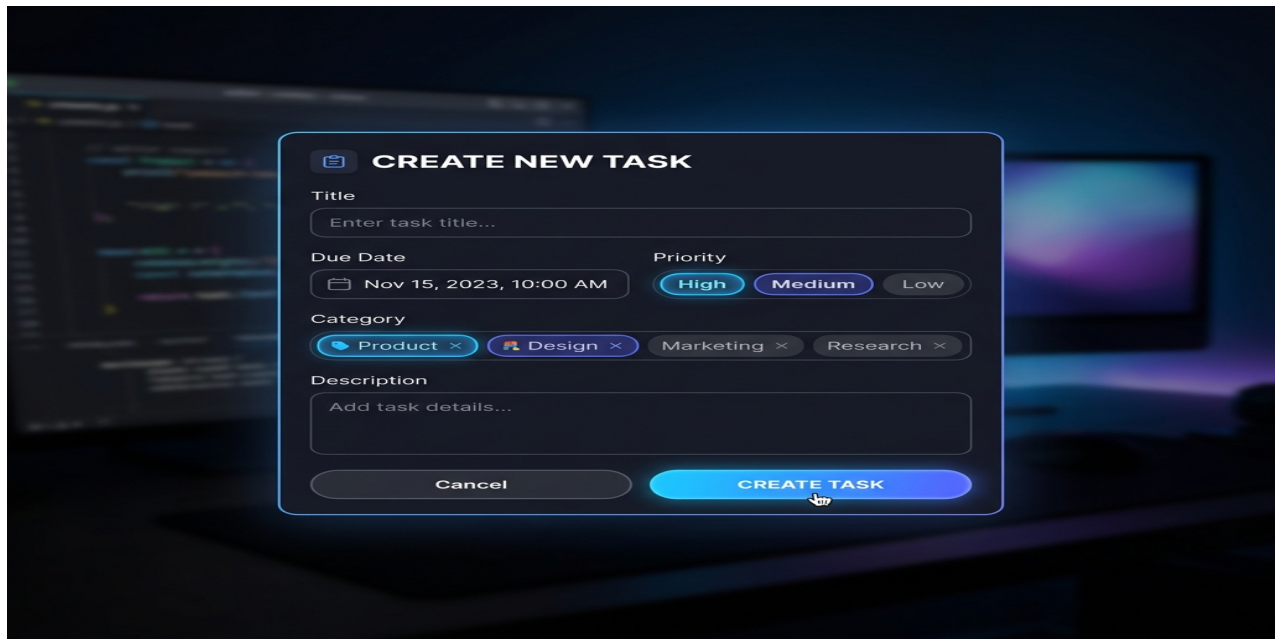

1. ■ Main Dashboard (Your Task Control Center)

- ■ **Green Progress Bar:** Shows your completion score percentage.
- ■ **Red & Amber Badges:** Red = High Priority (Do First!), Amber = Medium, Grey = Low.
- ■ **Category Filter Pills:** Click to sort by Work, Project, Study, or General.

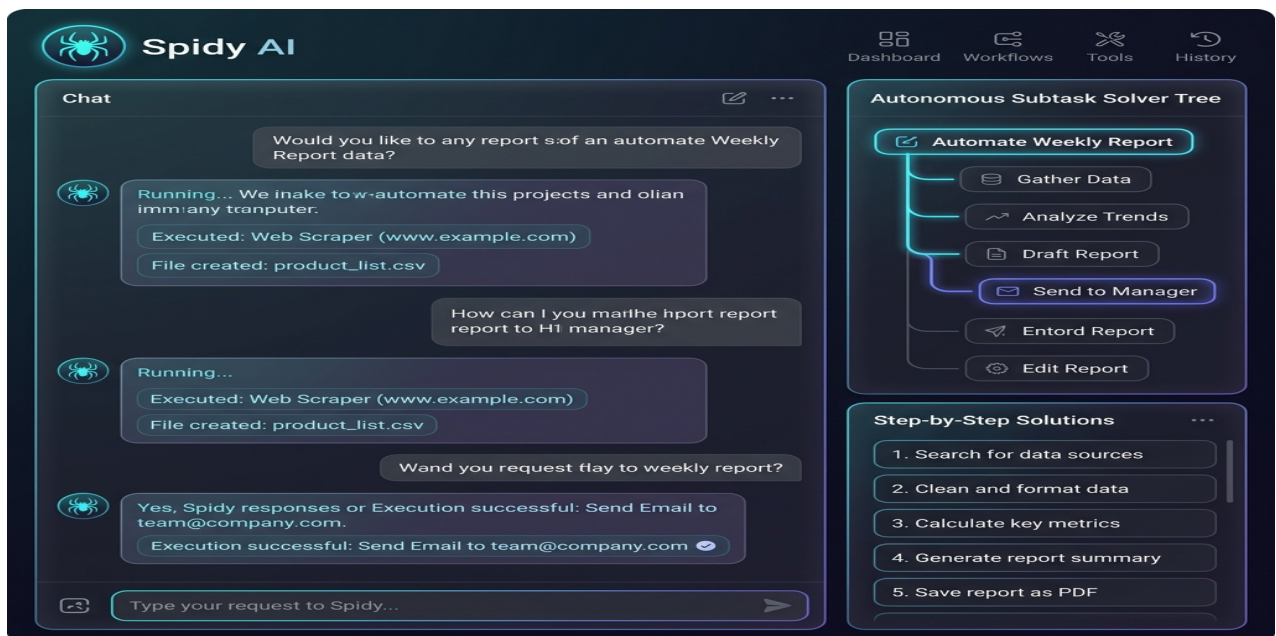

2. ■ How to Add a New Task

- ■ **Step 1:** Click '+ New Task' button at the top right.
- ■ **Step 2:** Type Title (e.g. *'Math Homework Chapter 4'*).
- ■ **Step 3:** Choose Priority (High, Medium, Low) and Due Date.

3. ■ Chatting with Spidy AI Helper

- ■ Talk in plain English: 'Mark Python task complete' or 'List urgent tasks'.
- ■ Cyan **Tool Badges** appear every time Spidy performs an action safely!

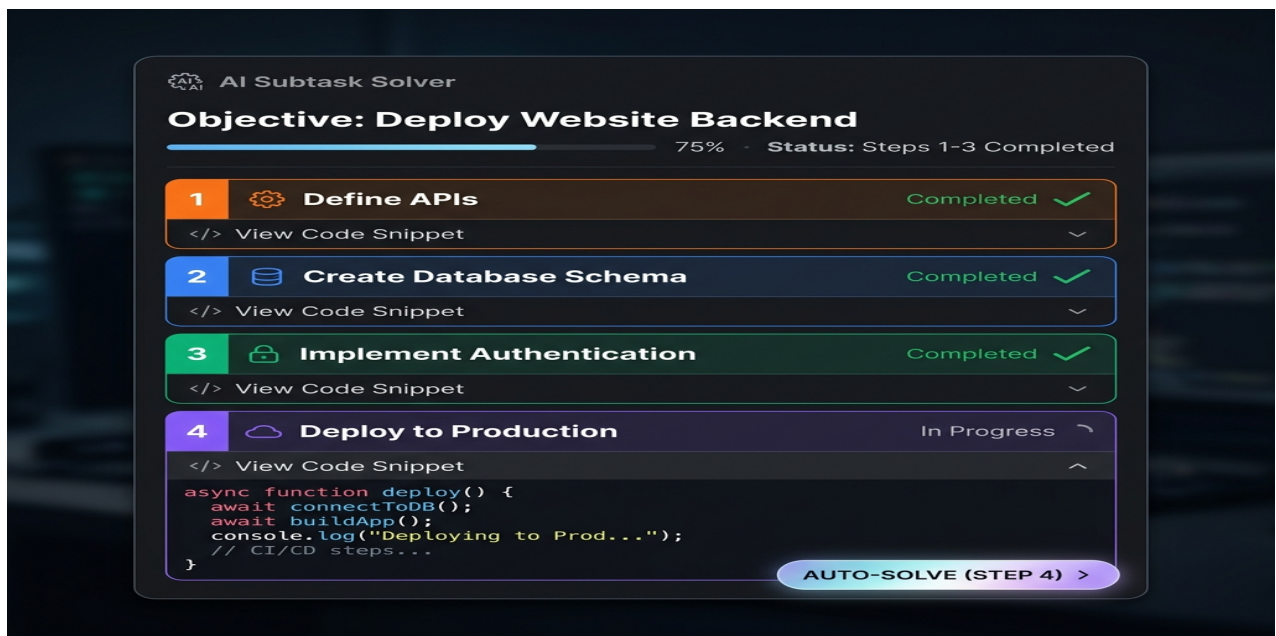

4. ■ Free Research & Weather AI Agents

- ■ **Wikipedia Research Agent**: Type 'Research Artificial Intelligence' or 'Lookup Space' to get instant facts.
- ■ **Open-Meteo Weather Agent**: Type 'What is the weather in Tokyo?' to see temperature and forecast.

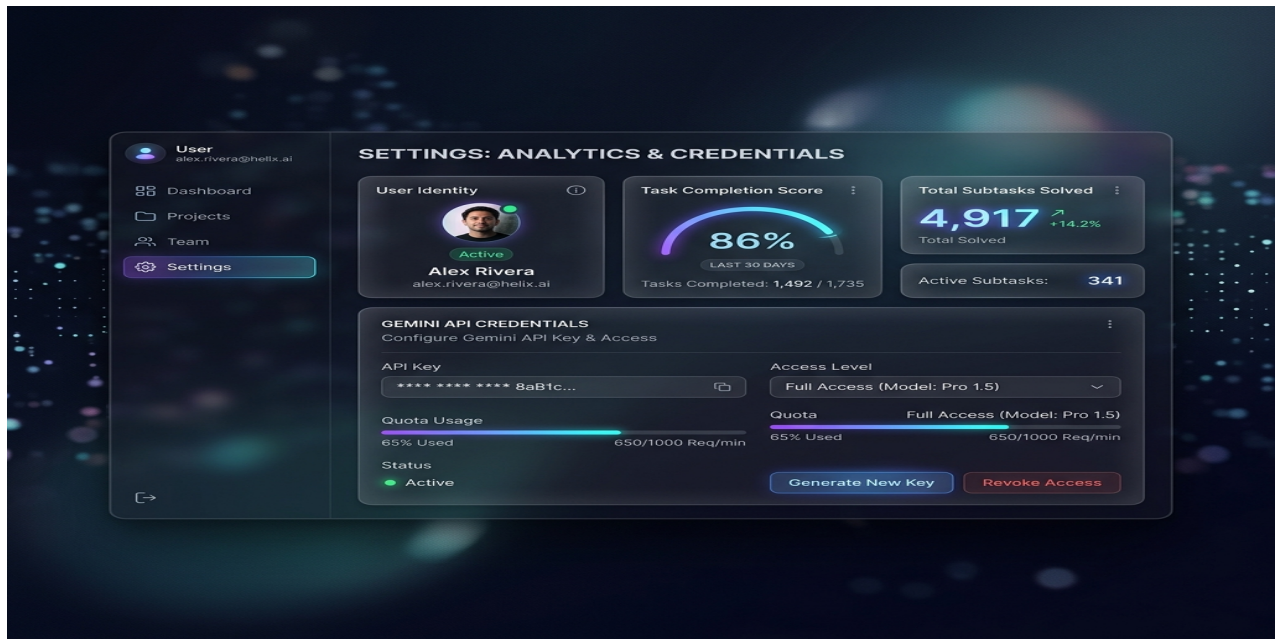

5. ■ 1-Click Autonomous Goal Solver

- ■ Type any big goal in the **AI Task Decomposition** box and click **Auto-Solve Goal**.
- ■ Spidy creates subtasks, writes solutions/code for each, and marks them all complete!

6. ■ User Email Identity & Gemini Key Settings

- ■ Click your **Email Badge** in top header to switch email profile.
- ■ View task completion %, total LLM operations, and subtasks solved by Gemini under Settings.

7. ■ Quick Reference Command Table

What You Want	Where to Click / What to Type
Add Task	Click '+ New Task' button
Talk to AI	Go to 'AI Assistant' -> Type chat message
Auto-Solve Goal	Go to 'AI Assistant' -> Click 'Auto-Solve Goal'
Check Weather	Type 'What is the weather in Paris?'
Research Topic	Type 'Research Robotics'
